Total Square Footage

Over 434,000 square feet of warehouse space

Locations

10 locations and 15 distribution centers

Customers

Supporting over 750 Customers

Solutions

- Offering Specialized repair solutions for cargo loading systems and components
- Providing More than 2M Parts including PMA
- Reducing cost by up to 60% with DER Capabilities
- Specializes in maintaining, repairing, and overhauling of large components
- Manufacturing Compact Lightweight Survival Rafts for aviation Industry
- Supporting your End of Life with Teardown capabilities

PMA Solutions – What is the Advantage?

At FCAH Aerospace, we are committed to providing innovative solutions that can help support your business objectives. Our PMA solutions are designed to help your organization reduce costs, increase durability, and improve turn-around time. We have Girt Assembly, Cylinders, and Portable Studs that support various fleets that are available for purchase today. Additionally, we are the exclusive distributor of PMA roller systems for cargo aircraft through First Class Air Support.

Ease of Maintenance

**Reduced Cost and
Increased Durability**

Same Quality or Better

**Improved
Turn-Around-Time**

AVI Aviation's PMA Parts

AVI Aviation offers PMA cylinders, reservoirs, and portability studs.

With these **PMA Solutions**, you can expect:

- Reduced lead time with in-stock inventory
- The same quality as the OEM alternative
- Lower cost in comparison to the OEM part

AVI Aviation's Top Selling PMA Parts

AVI Aviation's PMA Girt Assembly

AVI Aviation offers PMA Girt Assembly for Boeing 737 5A3307-701 and 5A3307-9.

Features and Functionality:

- Constructed of a high-strength, urethane-coated nylon fabric with an aluminized coating to protect against radiated heat. It is a crucial component of the emergency evacuation slide for passenger and crew evacuation.
- Connects the slide to the aircraft door and automatically deploys when opened during an emergency.
- Inflate after the pack ejects, ensuring a safe and efficient evacuation process.

First Class Air Support Roller Systems

First Class Air Support is the exclusive distributor of PMA Roller Systems, offering reduced cost, lower lead time, and available inventory.

Our PMA Roller Systems:

- Decrease the number of repairs needed from 6 months to a year with our PMA Roller System
- Decreased amount of wear and tear on Unicasters due to dirt and grease
- And increased effectiveness by using polymer over the aluminum used for the OEM alternative

Thank You!
