## SPECIFICATIONS

AVI Survival Products 9 Person Life Raft are the lightest and smallest rafts in the Survival Products line up. The NON-TSO Life Rafts are a great choice for those who fall under the Part 91 Category and for those pleasure boaters wishing to feel at ease if an emergency arises at sea.

The 9 Person model has a single tube inflatable design, constructed with the latest Urethane coated Nylon Fabric, with a single tube design using thermo bonding technology. Welding the fabric together tightly seals the seams together giving a seamless finish. Each raft includes the following: stabilizing Water Ballast system, hand pump, bailing bucket, sea anchor, secured life-lines on the exterior perimeter and interior, and an inflation/retaining line that is attached to a high strength patch on the raft to prevent drifting and a water activated locator light. Aluminum cylinders and valves are added to reduce corrosion while packed and in use. The Soft-Pack Valise is made of heavy-duty polyester fabric with secured Velcro closures for a tightly packed raft.

These rafts are engineered to reduce overall weight and deliver a compact design for easy transport and stowage for any aircraft compartment. AVI life rafts come with a 3-year warranty on parts and labor.

PART NUMBER	DESCRIPTION	PACK SIZE	WEIGHT
<b>1900B-1</b>	9 Person Basic	15" x 13" x 7"	20 lbs
